Hi Kelly,

Enclosed please find our response to comments on the model QAPP. Our understanding is that no correction of the QAPP is needed. I think this closes the loop on EPA comments. Let me know if you need anything else.

Thanks,
John Yagecic

Hi John,

Following up on the highlighted outstanding 106 requirement. Please send me the updated QAPP with the appendixes for final approval as soon as possible.

Thanks
-Kelly

Subject: EPA/DRBC 106 Current Status

Hi John,

I am just checking in to make sure we are on the same page with outstanding 106 requirements.

1. EPA is waiting for a final workplan that includes a cover sheet. I re-attached the final comment document and example coversheet for quick reference.
2. EPA is waiting for a final mid-year report with cover sheet. I attached the email I sent on 10/28 detailing the final comments to this document.
3. EPA is waiting for a synthesized budget sheet for the FY20 application modeling the example sheet sent on 11/6. I've re-attached that email for quick reference.
4. EPA is attaching the second round of comments to the Eutrophication Model QAPP document that DRBC sent on 10/25. I've attached the original comment memo as well for quick reference (From July 2019)

Let me know if you have any questions. Unfortunately I cannot be at DRBC in person today for the WQAC meeting, but I will be participating remotely today.

Thanks,

Kelly Somers
